

Welcome home.

5716 Bashford Crest Lane, Raleigh, NC 27606

We're so glad you're here.

This house has been ours for a good while, and it holds a lot of good memories — we hope it becomes a place of rest and good memories for you, too. Moving is a lot, so we've tried to make settling in as easy as we can, and we put everything you might need in one place (more on that just below).

If something isn't working, or anything ever breaks or feels off, please reach out. We'd genuinely rather hear from you than have you wonder. We want this to be a home where you feel cared for — and we mean that.

We believe a home is a gift, and we're grateful to share this one with you. You're always welcome to join us at **Antioch Church** on a Sunday if you're ever looking for community — no pressure at all, just an open door.

Settle in, make it yours, and don't be a stranger.

— Jason & Abby

🏠 Your Home Base

We built a simple app that keeps everything about the house in one place — how to pay rent, how to set up utilities, trash days, a house manual, our favorite local spots, and any notes from us. It's the fastest way to find what you need, and it lives on your phone.

Log in to the Bashford app

Visit **bashford-property.vercel.app** on your phone or computer and sign in. Tip: add it to your home screen so it feels like a regular app.

1 Your First Week

A gentle checklist to get settled — no rush, but these make life easier early on:

- ☐ Set up electricity (Duke Energy), gas (Enbridge), and water/trash (City of Raleigh) in your name — the app has a step-by-step guide. Internet is already on.
- ☐ Connect to the wifi (network & password are in the app under Property).
- ☐ Find the HVAC filters, breaker panel, and water shut-off (see “Good to Know” below).
- ☐ Save our numbers and download / bookmark the app.
- ☐ Put a renter's insurance policy in place (it's in your lease and protects your belongings).

2 A Few House Rules

These are also in your lease — here's the short, friendly version of what matters most:

- **No smoking indoors.** Smoking of any kind isn't permitted inside the house. Outside and away from the home is fine.
- **Pets.** Please keep to the pet terms in your lease. If anything changes, just talk to us first — we're reasonable.
- **Quiet hours & neighbors.** Raleigh's official quiet hours are **11:00 PM to 7:00 AM**, when plainly-audible noise (music, bass, loud gatherings) can actually be a city violation. Honestly, the simplest rule is just to be kind and considerate — keep things mellow at night and you'll be a great neighbor.
- **Parking.** Please park in the **driveway when possible**. Our street relies on street parking too, so parking on the street is totally fine — just try not to block a neighbor's mailbox so their mail can still be delivered.
- **Trash & recycling.** Collection is **Thursday** (recycling every other week). Roll the carts to the curb the night before and bring them back in promptly. Please use only the City-issued carts, and bag trash before it goes in the bin.

3 Good to Know — Where Things Are

Water shut-off	[Location — e.g. garage wall / crawlspace]
Breaker panel	[Location]
HVAC filters	Provided by us — please swap every 90 days. Spares kept at [location].
Trash cart storage	[Where the carts live between pickups]
Smoke / CO detectors	Located throughout the home. If one chirps, it usually just needs a battery — please tell us rather than removing it, and we'll take care of it right away.

4 Mail & Packages

- **Mailbox.** [Location — e.g. at the curb / cluster box #__, key provided]
- **Packages.** Carriers usually leave deliveries [where — e.g. at the front door, under the porch].

5 Yard & Outside

We handle the lawn. Mowing and general landscaping are on us, so you don't need to worry about it. The garden beds and yard are yours to enjoy — plant something, set up a hammock, let the dogs run. Just let us know before any bigger changes (taking out a plant, building something) so we're on the same page.

One seasonal tip: before the first hard freeze, it helps to disconnect the hose and cover the outdoor faucet so a pipe doesn't burst.

6 Make It Your Home

Please treat this like home, because it is one. Hang pictures, rearrange things, garden, host friends — you don't need to ask about the everyday stuff. We'd just ask that you patch nail holes when you eventually move out, and check with us before anything permanent (painting, mounting something large). Beyond that, settle in and make the space feel like yours.

7 Reaching Us

The easiest way to reach us is through the app — use **Report a Problem** for anything that isn't urgent, and we'll take care of it. For anything that **can't wait** (a water leak, no heat or AC, a gas smell, anything unsafe), please **call us right away** — don't wait on a message. The app's Emergency section also has the water shut-off and gas-leak steps.
