

UTILITIES SETUP GUIDE

5716 Bashford Crest Ln, Raleigh, NC 27606

Welcome! This guide walks you through setting up every utility for your new home. Please arrange for all tenant-responsible accounts to be active in your name as of your lease start date so there is no gap in service. Set these up about one to two weeks before move-in.

Quick summary: You will open three accounts in your name — electricity (Duke Energy), natural gas (Enbridge Gas), and one combined City of Raleigh account that covers water, sewer, garbage, and recycling. Internet is already provided through the home at a set monthly rate (see below), so you do not need to set that up unless you want a different provider.

At a Glance — Who Sets Up What

Utility	Provider	Set Up By
Electricity	Duke Energy Progress	Tenant
Natural Gas	Enbridge Gas North Carolina	Tenant
Water & Sewer	City of Raleigh (Raleigh Water)	Tenant
Garbage & Recycling	City of Raleigh (same bill as water)	Tenant
Internet	Google Fiber (provided by landlord)	Landlord

1. Electricity — Duke Energy Progress

Duke Energy Progress is the electric provider for this address. Set up service online or by phone; have your lease and move-in date ready.

Duke Energy Progress	
Phone	1-800-452-2777
Website	duke-energy.com (Start / Stop / Move Service)
What to have ready	Lease, move-in date, ID, this service address
Set up by	1–2 weeks before move-in; effective your lease start date
Notes	A deposit may be required for new accounts. Ask about Budget Billing to level out seasonal swings.

2. Natural Gas — Enbridge Gas North Carolina

Natural gas service is provided by Enbridge Gas North Carolina (formerly PSNC / Dominion). Set up service online or by phone.

Enbridge Gas North Carolina	
Phone	1-877-776-2427
Website	enbridgegas.com/north-carolina (Start Service)
What to have ready	Lease, move-in date, ID, this service address
Set up by	1–2 weeks before move-in; effective your lease start date

Notes	Ask about eBill, AutoPay, and Budget Billing options to manage your account.
--------------	--

3. Water, Sewer, Garbage & Recycling — City of Raleigh

Good news — the City of Raleigh combines water, sewer, garbage, and recycling into a single monthly utility bill, so this is one account, not four. Set it up with one call or online through Raleigh Water Self-Service.

City of Raleigh — Raleigh Water	
Phone	919-996-3245
Email	customercare@raleighnc.gov
Website	raleighnc.gov (Start, Stop, or Transfer Utility Services)
What's included	Water, sewer, garbage pickup, and recycling — all on one bill
Fees	\$50 service initiation fee per meter and a \$50 new-customer deposit (typical)
What to have ready	Lease, two forms of ID, this service address
Set up by	1–2 weeks before move-in; effective your lease start date

Trash & recycling day: Garbage and yard waste are collected weekly on the same day; recycling is collected every other week. Look up your exact collection schedule by entering this address in the Raleigh Reuse tool at raleighnc.gov, or in the Raleigh Reuse mobile app. The City provides a recycling cart and trash bin — use only City-issued carts, place bins at the curb (not in the street), and bag trash before it goes in the bin.

4. Internet — Google Fiber (Provided)

Internet at this home is provided through the landlord's Google Fiber service, which is the fastest and most reliable option in this area. You do not need to set up internet — it is ready to use on day one.

Google Fiber — Provided by Landlord	
Monthly cost	\$70 / month, added to your rent payment
What's included	High-speed Google Fiber internet and in-home Wi-Fi equipment
Setup required	None — service is active at move-in
Support	For connectivity issues, contact the landlord first (account is in landlord's name)

Please note: The \$70/month internet charge is added on top of your base rent and is detailed in your lease. If you would prefer to arrange your own internet provider instead, let the landlord know in writing before your lease begins so the arrangement can be adjusted.

Move-In Utilities Checklist

Use this quick checklist to make sure nothing slips through the cracks:

- ☐ Set up Duke Energy Progress (electricity) in my name — effective lease start date
- ☐ Set up Enbridge Gas (natural gas) in my name — effective lease start date
- ☐ Set up City of Raleigh account (water / sewer / garbage / recycling) in my name
- ☐ Confirm trash & recycling collection days via the Raleigh Reuse tool
- ☐ Confirm internet (Google Fiber) is active — or notify landlord if arranging my own

- Save all provider phone numbers and account numbers somewhere handy

Questions about any of this? Reach out to your landlord — happy to help you get settled. Provider phone numbers and details are current as of 2026 but are subject to change; confirm directly with each provider.
